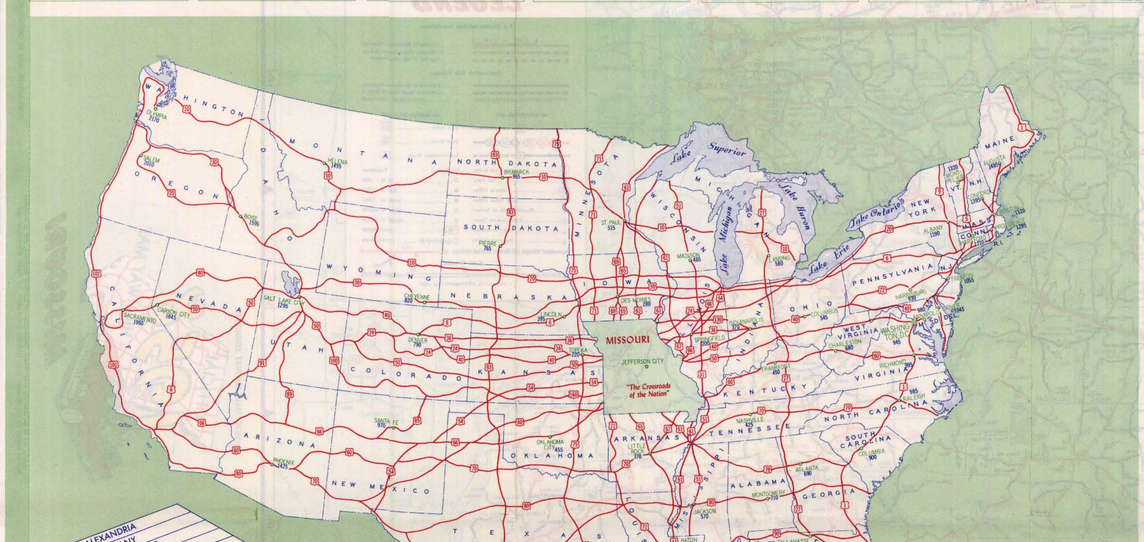
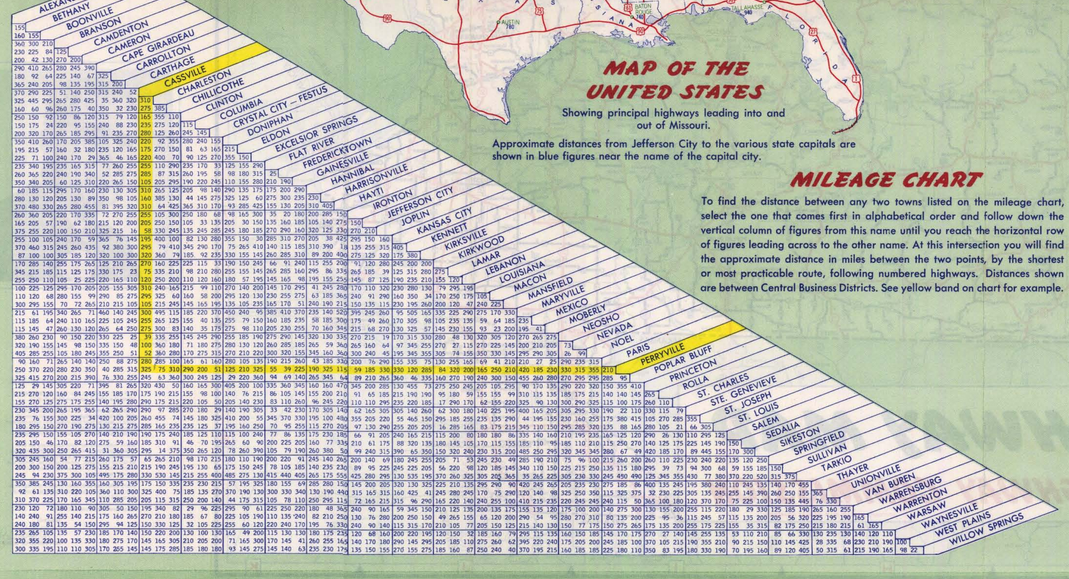
MARKED ROUTES in MISSOURI CITIES



MAP OF THE UNITED STATES

Showing principal highways leading into and out of Missouri.

Approximate distances from Jefferson City to the various state capitals are shown in blue figures near the name of the capital city.



MILEAGE CHART

To find the distance between any two towns listed on the mileage chart, select the one that comes first in alphabetical order and follow down the vertical column of figures from this name until you reach the horizontal row of figures leading across to the other name. At this intersection you will find the approximate distance in miles between the two points, by the shortest or most practicable route, following numbered highways. Distances shown are between Central Business Districts. See yellow band on chart for example.

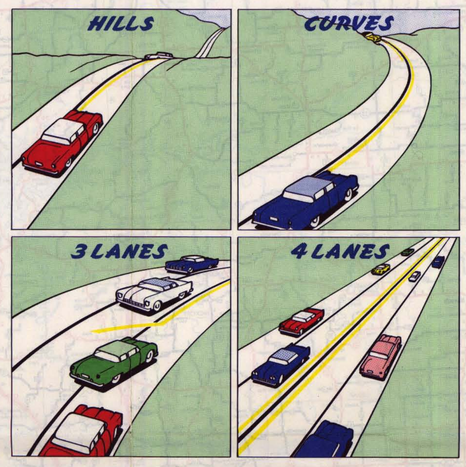
NO PASSING ZONES



The yellow stripes you find on Missouri highways mark the **no-passing zones,** stretches of highway where hills or curves make the sight distance ahead so short that it is unsafe to attempt to overtake and pass another motor vehicle.

Their meaning is simple: When there is a yellow stripe on your side of the center line, do not attempt to pass. On two-lane roadways the yellow no-passing stripe is to the right of the center line, as indicated in picture (1) above, on a hill and in picture (2), on a curve. On a three-lane roadway the yellow stripe diagonally across the middle lane will guide you back to the right-hand lane through the zone. Here the yellow stripe is just to the right of the lane line as shown in picture (3).

Four-lane roadways have two yellow stripes, one on each side of and near the center line as in picture (4). These stripes are continuous on all four-lane roadways and for safety's sake should never be crossed.
